

CWB Certification Mark – Conditions of Use

Please read the following as it describes the conditions for using the Canadian Welding Bureau's (CWB) Certification Mark (mark) and keep this document in a secure location for future use.

The mark applicable to your company is provided as an attachment to this document. Two versions are provided: one is a jpg and the other is a high resolution eps. If you are using Adobe Reader 9 or Acrobat Professional 9 click on the icon on the lower left hand corner of the screen that looks like a paper clip. If you are using Adobe Acrobat 7 click on the tab that says "Attachments". Either one will open a window that will allow you to access the files.

The Canadian Welding Bureau's Certification Mark is the property of the Canadian Welding Bureau. The CWB grants permission to CWB certified companies to use the mark for the purpose of supporting their promotional efforts and claims that they are CWB Certified. The mark may be displayed on company letterhead, advertising, web site, promotional material or other literature that references the company's certification. It cannot be placed on manufactured or fabricated products, drawings, specifications, other documents or electronic media where it could be interpreted as meaning an approval of the company's products or services by the Canadian Welding Bureau.

The mark must not be altered in any way or used in conjunction with any modifying terms or phrases. The mark must be used in its entirety, including the reference to the applicable certification standard (e.g. CSA W47.1). It may be resized to meet size requirements provided that the correct proportions are maintained. Use of any portion or part of the mark other than the whole is prohibited. No colour use or variation other than the options specified as follows is permitted: spot color: Pantone 301C, CMYK: C-94 M-54 Y-14 K-4 or black.

Permission to display the Canadian Welding Bureau's certification mark is conditional upon the company maintaining its certification. Loss of certification, for any reason, requires the immediate cessation of any and all use and display of the mark.

Please call the Canadian Welding Bureau if you have any questions about the use of the mark.
